

# Learning Log Tasks - Summer Term 1

Please choose one activity to complete each week linked to our current topic of 'Where does our food come from?' Don't forget to take photos of your work and add them to tapestry!

## Which animals live on a farm?

List as many farm animals as you can. Can you draw a picture of them? Can you tell me what food they might provide us with?

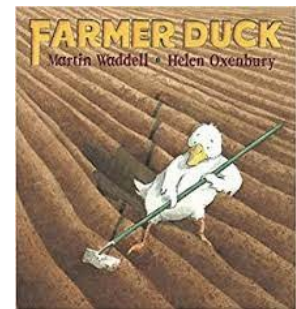

## Farms in our local area.

Can you visit a farm in our local area? Perhaps you can drive or walk past one? Maybe you could visit Morwick to see the cows? Take some pictures and tell me about your trip!

## Favourite Farm Story

Do you have a favourite story book about a farm? Can you tell us about it on tapestry?

## Growing vegetables

Can you try and grow a vegetable plant? Can you take a photo diary of how it grows? What vegetables are you hoping to grow?

## I love to cook!

With a grown up cook a meal or bake a cake—write down the ingredients you use and which plants or animals they come from. Share your creations on tapestry!

## Farm animal facts!

Choose one farm animal and find out as many facts as you can—record these however you like and record them on tapestry!

## Mothers and Babies

Animal babies all have special names. Can you find out the baby animal names for a cow, horse, pig, chicken, sheep, dog, duck and cat?

## How does your garden grow?

Design your own vegetable garden. Which vegetables would you grow? Remember—it doesn't have to be a picture, perhaps you could create a model with lego or a collage? Don't forget to share on tapestry!

## I can try new things!

See if you can try a different food (meat, fruit or vegetable) you might get from a farm that you haven't tried before! Don't forget to taste them and tell us what you liked and what you didn't!
