

Year 4 Home Learning Spring 1

Smashing Saxons

Choose **one** task to complete each week and have your book back in class by Thursday. We will share our learning on Friday.

Have fun!

<p>Create a poster about climate change, with pictures and information. What can we do to help with climate change and improve our environment?</p>	<p>Using techniques and ideas we have learned in our art lessons, draw your home or another building that interests you.</p> <div style="display: flex; justify-content: space-around; align-items: center;">   </div>	
<p>Keep practicing your times tables at home to see how far you can move up the charts and become a rock legend!</p> 	<p>Using Lego or other materials create an Anglo Saxon home or village to show what you have learned.</p> 	
<p>Imagine that you have gone back to Anglo Saxon times. What questions might you like to ask the people you meet. Can you do some research to see if you can answer any.</p>	<p>Reusing items that we don't need anymore is a good way of helping the environment. Can you think of a way to upcycle an item from home? This could be an item of clothing or container that is no longer needed. Label a drawing of your idea or have a go at making it.</p> <div style="display: flex; justify-content: space-around;">    </div>	
<p>Personal project: choose your own interest to share with the class. You can share it in any type of way - report, poster, picture or sculpture.</p>	<p>Research Sutton Ho and create either a report or poster to include facts and drawings explaining what it is about.</p>	<p>Create a quiz about materials and their properties. This could include things that you have learned from previous years or new things we have learned.</p>

Spelling test will be on Thursday. Please practice the spellings listed for that week.
