

## Amble First School

### Sport Premium Information 2020-21

The Primary PE and Sport Premium is awarded to every school with primary aged pupils and must be used to fund additional and sustainable improvements to the provision of PE and sport, to encourage the development of healthy, active lifestyles. Schools should publish the amount of premium received; a full breakdown of how it has been spent (or will be spent); what impact the school has seen on pupils' PE and sport participation and attainment and how the improvements will be sustainable in the future. Schools should also consider how their use of the premium is giving pupils the opportunity to develop a healthy, active lifestyle.

In 2019/20 there was an underspend (impact of Covid lockdown) of approximately £8,800 of funding.

In 2020/21 we will receive approximately £17,500 of funding. Below is a summary of how we will use it to benefit our pupils.

There are 5 key areas for the premium to be spent on:

1. the engagement of all pupils in regular physical activity – kick-starting healthy active lifestyles
2. the profile of PE and sport being raised across the school as a tool for whole school improvement
3. increased confidence, knowledge and skills of all staff in teaching PE and sport
4. broader experience of a range of sports and activities offered to all pupils
5. increased participation in competitive sport

## **Sport Premium Sustainability**

Wherever possible the PE and Sport Premium is used to create sustainable improvements in PE and School Sport by:

### **Upskilling Staff**

- Providing opportunities to develop staff skills, knowledge and confidence which will impact on future cohorts of children

### **Improving Community Links**

- Creating meaningful links between the schools and community clubs where coaches deliver in schools, children are taken to the club for School Games competitions or children are supported to transition into community sport

### **Health & Well-Being**

- The development of Sports Leaders, School Sport Organising Crews and the provision of alternative activities such as skipping and hula-hooping have increased physical activity in school playgrounds. Trained leaders and teachers have created sustainability for the future

### **Partnership working**

- Thirteen Ashington and Coquet School Sport Partnership schools working together has built a strong, sustainable network where ideas are shared, support is offered and schools collaborate to offer their pupils the best opportunities they can.

Some of the activities, programmes and support we are able to provide with the Sport Premium would not be sustainable without further funding or passing on the costs to the pupils.
